I approve this care plan and give permission for school personnel to share this information, follow this plan, administer medication and care for my child/youth, and if necessary, contact our health care provider. I assume responsibility for providing the school/program prescribed, non-expired medication and supplies (such as a spacer), and to comply with board policies, if applicable. I am aware **911 may be called if a quick relief inhaler is not at school** and my child/youth is experiencing symptoms.
